The purpose of our flash project is for our website audience to know what page of our collaboration website they are on. Our audience will be teachers who are looking for new ways to use technology in their classrooms. The project will start out as a Smartboard picture we will then use flash timeline to create text that transforms for one word to another (Technology for Teachers to Introduction to Websites Wikis & Blogs to Templates to Assessment tools to Projects and Collaboration Tools). Our flash project will use the words that are in the tool bar of our website.
